DES DIGITAL EYE STRAIN

High Energy Visible Light (400nm to 455nm)

SYMPTOMS:

- *Red, dry, irritated eyes*
- *Blurred vision*
- *Light sensitivity*
- *Fatigue*
- *Headaches*
- *Back/neck/shoulder pain*

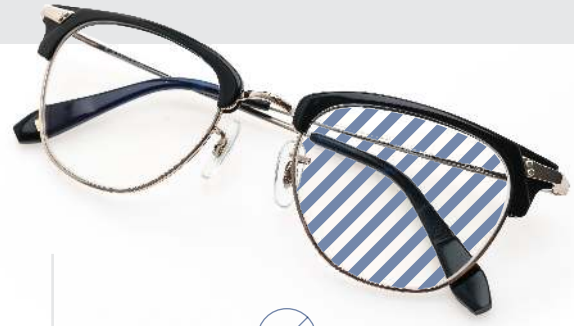

RETINAL BLISS ™

THE DIGITAL EYE STRAIN SOLUTION!

RETINAL BLISS™ is a lens coating solution

RETINAL BLISS™ coats both sides of lens

RETINAL BLISS™ can be applied to any lens

BLUE LIGHT ABSORPTION

REFLECTION ABSORPTION

- Rather than reflect blue light, this unique solution actually absorbs it. This prevents the wearer's eyes from being obscured by lens glare.

BETTER SLEEP CYCLES

Filtering blue light improves the wearer's Cortisol production (telling our bodies when to be awake) compared to many blue light coatings.

ULTRAVIOLET PROTECTION

RETINAL BLISS™ provides high energy light protection, preventing destructive light frequencies from reaching the eye.

RETINAL BLISS™ includes

BACKSIDE UV REFLECTION

BACKSIDE UV ABSORPTION

DIGITAL EYE STRAIN RELIEF

GOOD LIGHT HEV LIGHT

Blocking the irritating effects of electronics gives the eyes rest from daily exposure.

RETINAL BLISS™ makes the digital life less of a strain!
